Profile Summary

Passionate and motivated front-end web developer skilled in HTML, CSS, and JavaScript, with experience using frameworks like React.js to build responsive and interactive web applications. Demonstrated ability to create user-friendly designs and implement best practices for web accessibility and SEO. Eager to contribute innovative solutions in a dynamic team environment while continuing to learn and grow in the field.

Projects

Movie WatchList App | GitHub | View | *React, React-router-dom, IMDB API,* — **December 2023**
- Designed to offer a seamless and engaging experience, making it simple for users to explore, track, and manage their movie preferences.
- Provides an intuitive UI where users can view movie details, including title, poster, synopsis, release date, and ratings.
- Allows users to add movies to their "Watched" or "Favorite" sections, organizing them into separate pages for easy access and management.
- Retrieves and displays the latest movie data from an external API, ensuring up-to-date information for users.

MoneyMap-finance tracking app | GitHub | View | *React, Redux, Firebase, Ant-design* — **January 2024**
- Enabled users to track expenses, set budgets, and analyze spending patterns.
- Utilized charts and tables to display financial data clearly and effectively.
- Integrated Firebase for real-time database management and user authentication.
- Designed intuitive user interfaces with Ant Design for a polished and professional look.

CodeTogether- real time code collaboration app | GitHub | View | *ReactJs,ExpressJs, Socket.io, Codemirror* **March 2024**
- Designed a user-friendly interface to facilitate seamless collaboration between multiple users.
- Built the back-end using Node.js and Express.js for robust server-side logic and API integration.
- Implemented WebSocket for real-time communication, enabling live code sharing and editing.
- Integrated authentication and authorization features to ensure secure access and user management.

Technical Skills

Languages: Java Javascript, HTML+CSS
Libraries : ReactJs
Web Dev Tools: VScode, Git, Github
Cloud/Databases:MongoDb, Firebase, Relational Database(mySql)
Relevent Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management System
Areas of Interest: Web Design and Development
Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

Education

Motherhood University (Percentage: 84.00) — **2021 – 2024**
Bachelor of Science — *Roorkee, Uttrakhand*

Trainings

Coding Ninjas — **June 2023 – July 2024**
Full Stack Web Development

Certifications

* Data Structures and Algorithm
* Frontend Development
* React
* System Design
